Is it necessary to take a nap every day?

Yeah, I do think so. (general) I believe that the better we rest at noon, the more energetic we will be in the afternoon. So it's really important to have forty winks after lunch. (make it personal) You know, I say it also because I do it on a daily basis. I always feel very drowsy around 3 o'clock if I don't take a nap.

Do you think people will still write letters in the future?

Honestly, I don't suppose so. (general) First of all, it takes more time to write a handwritten letter than to write an email. Then, you have to wait a few days before whoever you're writing to gets the letter and that's why we call it snail mail.

(make it personal) Personally, I only write emails and I've had this habit for many years. As far as I know, none of my friends still writes letters. So yeah, they will definitely be gone in the future.

Do you think children should learn to do some housework?

Yeah, definitely. (make it personal) When I was a kid, I always did chores around the house and my parents rewarded me with an allowance. (general) So I think it's a great opportunity to teach children about money and its value. They'll know money isn't easily earned, so they can treasure it more. (general) Plus, it helps to make kids healthier too. Doing housework can be seen as a physical activity and (make it personal) I believe I was much healthier than a lot of couch potatoes just because I did it on a daily basis.

不知道说什么...

1. 把思考过程用英语说出来

What are the differences between the design of the buildings in the north of China and that in the south of China?

What are the ...? Oh, this is pretty hard. I'm not an expert on buildings, and ... I've never thought about it before, but I guess ...

Do you think that global warming will continue?

Well, I'm not an expert on global warming, but I suppose it will probably. I only think so because it's been getting warmer these years and I guess perhaps it will keep being like this.

“Well, I don’t really know much about ..., but I suppose ...”

What kinds of jobs might stop when the season changes?

Well, I don’t really know much about seasonal jobs but I suppose farmers don't have to work in the winter, or at least in the north of China cause it's freezing cold and the crops don't grow. Plus, maybe fishers don't work either because all the rivers and lakes are frozen.

How would you describe a good friendship?

Well, off the top of my head, I think you should be able to trust each other. I mean, this is of great importance. (回顾过去) You know, I remember vividly that (时间) a couple of years ago, (人物/事件) a friend of mine said something bad about me behind my back. I had thought that we were best friends, (感受) but that really hurt my feelings. I felt I couldn't trust him anymore.

Do you bring gifts when you visit others?

*I only bring a gift when I visit someone for the first time and what I bring depends on what that person is into. (回顾过去) **For instance**, last month, I visited a girl I had met at work. She invited us over for a DVD night and I just brought her a couple of DVDs that I liked.*

*No, I don't think so. You know, teachers need to be really patient, but honestly, I'm not like that. (反例) If I **were** a teacher, and if a student **made** a mistake over and over again, I guess I **would** just lose my temper. I don't think such a person **could** be a good teacher.*

*In your opinion, are newspapers

- *Yes, in my opinion newspapers are very important (原因) because they give us information about what is happening around the world. They are a vital source of knowledge about education, technology, medicine and many other fields. (反例) If newspapers **didn't** exist, **I think** the quality of news coverage **would** suffer because there **would** be fewer professional journalists. We would have to rely, for example, on unpaid bloggers who do not have the budgets to carry out detailed research before they write an article.*

What do you think are the most important qualities for friends to have?

微博：杨帅-贵学

公众微信：Ielts-shuaige

版权所有，盗版必究！

- *Maybe the most important things are that friends need to share common interests and be honest with each other. (原因) Friends are people we spend a lot of time with, so it definitely helps if they enjoy doing the same activities or talking about the same topics as we do, and of course we need to be able to trust our friends, so honesty is vital for a good friendship. (反例) I think I would struggle to become friends with someone who didn't have anything in common with me, or who wasn't reliable or trustworthy.*
